WYANDOTTES AND LEGHORNS DIVIDED THE HONORS dates of the Fams. In First Week of Third International

The case was heard laying competitions. The Englishman The case is one in which Heimer who won out in the second international contest with a pen record of 1190 applies for the appointment of a re-ceiver over the society. He alleges that sveral years ago the Arion Singeggs and an individual record of 282 eggs, must now look to his laurels. Not satisfied with honors already won, he has sent a pen of Wyandottes as well as Leghorns in the hope of distancing poses and that he contributed \$1,000 at that time and had contributed \$100 a year ever since. He claims that the defendant society, which is incorpor-American breeders with an American variety. The managers of the competition, however, were able to collect only ated, had wandered away from its obeight eggs from Barron's Wyandottes, jects and purposes, that Socialistic whereas a pen of White Wyandottes ideas had cropped into the organiza-tion and that it had been addressed from little old Rhode Island produced 37 eggs. Barron's Leghorns laid nine by Industrial Workers of the World, thereby violating its bylaws and con-

eggs for the first week, while two American pens produced 28 each. The total egg production for the first week was 439. This is a relatively 49 per cent, better yield than for the corresponding week last year. It cannot, of course, be expected that this rate will be maintained throughout the year, since it would mean that every single solitary hen would be obliged to lay 233 eggs during the course of the

competition White Wyandottes and White Leghorns divided honors about equally for the week. The pen of Wyandottes owned by Neale Bros. of Apponaug, R. L. came first with 37 eggs to their credit. White Leghorns came next, two pens tying for second place with 28 eggs each, owned respectively by Mrs. E. Woodruff of New Haven and Charles N. St. John of Greene, N. Y. Merrythought farm of Columbia, Conn., supplied a pen of White Wyandottes for next place with 26 eggs. A Rhode Island Red pullet from Pinecrest or-chards, Groton, Mass., seemed ambi-tious to make haste and started out by producing a double yolked egg that weighed nearly a quarter of a pound.

The ten leading pens for the first week are as follows: Neale Bros., Apponaug, R. I., White Wyandottes, 37; Charles N. St. John, Greene, N. Y., White Leghorns. 28; Mrs. K. E. Woodruff, New Haven, Conn., White Leghorns, 28; Merrythought farm, Columbia, Conn., White Wyandottes, 26; P. G. Platt. Wallingford, Pa., White Leghorns, 24; C. H.
